Report of the 'Responses of student'

Google form collected information and analysis:

According to the report of the responses collected from the google form . The report says that most of the students are undertaking higher education like M.Phil , some of them have cracked M-SET/NET . there are a few students only who have taken Value added courses and no one is engaged in Social work. They are working in any of the esteemed organization or some of them have started business. In the form their name, address, ID of workplace and evidences of work were asked which was answered by them and also proof was executed.

Responses of the Teachers working in the institute:-

The collected information says that the teachers have been included in the decision taking committee and at the same time they are encouraged by the Management to participate in various Teacher development programs like research and development , group discussion , designing and framing of curriculum. The examination system is fair and treat every student equally. Internal and external exams have been conducted here in a flawless manner. The library is well equipped with enormous books and digi library availability.

Suggestion from the teachers are:

To avail the digital support in the class room for effective teaching and working purpose.

Action taken on the above information:

- Availibility of google classroom.
- Projector has been installed in the B.ed seminar hall.
- Availability of OHP.
- Library books are increased in number.
