Skill Development Cell

Introduction

Skill development is the most important factor in 21st century. Teaching is also the most important skill for the teacher but to sustain in the society we need to give more importance to other skills also by keeping this things in mind our institution started to prompt new Entrepreneurs for the societies so every year our college under take various activities for skill development.

Objectives of the Cell

- To identify students having entrepreneurial skills and/or innovative thinking and Categories these students into 5 categories based on their progress in entrepreneurship.
- To facilitate students to convert their ideas and projects into feasible business.
- To create at least 1 student start-up every year with a client base of 1000 clients.
- To become an aggregator for the various products of students of MCES..
- To extend entrepreneurial support to various sections of society.

Scope of Operation

The cell will remain functional for both the year, students of all classes, alumni and Faculty members can become members of the cell.

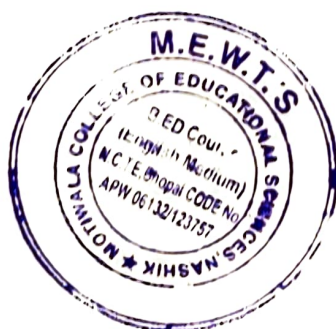

The cell is also open for school students, students from other colleges, women Entrepreneurs and any other person seeking help to establish their own enterprise.
